ADDITIONAL INFORMATION

Referral Requirements	No written referrals are required when receiving care from Plan Providers. Referrals to non-Plan Providers must be approved by Dean Health Plan before services are received. After reviewing the referral request, Dean Health Plan will notify you and your provider in writing of the decision.
Prior Authorization Requirements	Some services, treatments or procedures require prior authorization to determine the medical necessity of the service. If you are not sure if a service or procedure requires prior authorization, you can contact the Dean Health Plan Customer Service Department. If you go to a Plan Provider, the provider is responsible for requesting any required prior authorization for services. After reviewing the prior authorization request, Dean Health Plan will notify you and your provider in writing of the decision.
Medicare Claims Procedure	Most Plan Providers accept Medicare assignment, in which case the process is fully automated. If Medicare is the primary carrier, claims must be submitted to Medicare first. After Medicare processes the claim, your provider will then submit the itemized bill and the Explanation of Medicare Benefits to us for processing as the secondary carrier.
